AI Agents for Intelligent Document Interaction

Hermetica

Never read boring documents again

Problem

- **Lots of pdf documents everywhere**
- **AI-generated documentation about to explode**

Solution

A document parser capable of understanding all kind of unstructured data

Multimodal Understanding

Advanced NLP & OCR

Contextual Web Integration

Interactive Querying with direct references to source material.

Market Validation

Rossum

450 enterprise customers (Bosch , Siemens)

Hyperscience

Raised 290M to serve its 50 big clients with their data entry processes

Instabase

- Valued at $2B
- 45 enterprise customers
- Average contract at $1.02M

Made by ChatGPT for PowerPoint

Market Opportunity

Curreent Enterprise IDP Market Segment -> 2.29 billion

$9.56 billion by 2029

Not a market yet for individual user segment

Target Market

Finance

Contract analysis, compliance checks, laws and constitution parsing

Legal

Financial statement analysis, regulatory compliance

Business Model
Subscription based

Free Tier

- Basic version for free

Plus $20

- Multiple document parsing
- Deep reasoning capabilities
- Integrated web search and other life changing tools

Go-to-Market Strategy

Pilot Programs

Collaborate with select legal firms to deploy MVPs, gather feedback, and refine the product.

Partnerships

Form alliances with legal tech platforms to integrate our solution and expand reach.

Content Marketing

Publish case studies and whitepapers demonstrating the tool's efficacy.

Product Roadmap

Complete	Q2 2025: Complete MVP with core functionalities.
Initiate	Q3 2025: Initiate pilot programs with legal firms; gather user feedback.
Refine	Q4 2025: Refine product based on feedback; prepare for broader market launch.
Launch in	Q1 2026: Launch in the legal sector; begin exploring adjacent markets like finance and healthcare.

Financial

We are looking for a 12-month financing to finish the first version of the core product and reach the first 10.000 customers

A Funding of 300k would allow us to allocate enough resources towards :

50% -> for team expansion and salaries.

25% -> for cloud infrastructure and AI model training.

15% -> to marketing and customer acquisition.

10% -> reserved for legal, compliance, and miscellaneous expenses.
